Ted,

The ZBR approved a special use permit for a public utility pump house for PWFD, which is the same public utility use category you were approved for with Aquidneck Light. There was no variance approved by the ZBR in regards to not requiring OSWTS. The requirement for providing bathroom facilities is a building code issue and not a zoning requirement. The Town Council is the Building Code Board of Appeals for the Town.

I have copied Gareth on this email, as I believe he may have more insight on this issue.

Regards,

- Mike
