Subject: Review of Butts Hill Restoration Committee vegetation maintenance plans

Hello Brian,

Per your request the Portsmouth Tree Commission reviewed the vegetation maintenance plan submitted to the town by the Butts Hill Fort Restoration Committee. The commission voted to endorse the plan as detailed with the clarification that no trees shall be removed without prior approval of the Portsmouth Tree Warden in consultation with the DPW director in accordance with RI law and Portsmouth's local tree ordinance.

Please let me know if you need any additional information regarding last night's meeting.

Take care,

Scott Wheeler
Chair, Portsmouth Tree Commission
